Brewer Design Unveiling New Sit Stand and Mechanic Stool

Milwaukee, WI - Brewer Design announces the addition of a New Sit Stand and a New Mechanic Stool to its industrial product line.

These additions “round out our complete polyurethane line while bringing colors and comfort to new markets...this will provide Brewer Design with an increased presence in a wide variety of manufacturing facilities including Material Handling and the Automotive Industries”.

The Sit Stand is available in two heights ranging from 17”-30” combined. Its design includes a soft polyurethane seat that resists stains and a contoured, tilting seat for improved leg circulation.

The Mechanic Stool is an innovative product that will increase productivity in the work place. Available in three heights, this stool includes a molded polyurethane seat that meets flame retardant standards of FMVSS 302, has a built-in magnetic strip and a tool/parts tray divided into five compartments.

In addition to the high quality craftsmanship of the Brewer Design brand, a 12-year warranty is offered with the products.

To receive additional information on these new products or to be connected with a distributor in your area, please contact customer service at 1-800-558-8934 or visit us on the web at www.brewer-design.com.
